

# Solid Gear Vent 2 safety shoes, S1P, ESD

Item number:

SNI-SG76011

Created on 23.05.2024

## Description

The ultra-light MATRYX® upper, together with the BOA® Fit System, offers an amazing feel. Cushioned and comfortable shoe for hours of walking while relieving pressure through the full ETPU midsole. The textile was woven specifically for the Vent 2, and the density of the fabric varies in different areas of the shoe to optimize zones for ventilation, flex and durability with less lining. To provide optimal protection without sacrificing comfort and sustainability, the Vent 2 uses the specially developed OrthoLite® insole with high resilience.

MATRYX® is also partially dope-dyed, which means a significantly lower environmental impact compared to conventional textiles. In addition, the upper is made from 70% recycled polyester and the lining from 100% recycled polyester. ESD function in accordance with EN IEC 61340-5-1:2016.

### Special features:

- ETPU midsole for endless cushioning
- Ventilated and ultra-light MATRYX®
- Highly breathable PU foam insole made from OrthoLite®
- BOA® Fit System
