### Diffuser

The gun is equipped with an adjustable (orientation and width) diffuser to spread the glass beads equally over a wide line up to 30 cm. It has a stiffening plate in carbide to increase its lifetime. This can be easily replaced when it wears out.

The diffuser can be equipped with a glass bead sensor to avoid having a line without glass beads. This sensor is connected to an electronic device, which manages the gun(s) in action and the alarms (on request).
