## 4 POWERS FOR A LARGE CHOICE OF APPLICATION

THANKS TO THEIR SPECIFICITIES, SCRAP'AIR® ARE CHARACTERIZED BY:

LIGHTWEIGHT, HANDINESS AND EFFICIENCY.

# PATENTED ANTI VIBRATION SYSTEM Reduces vibration in hands and arms until 40% and grants therefore better using conditions \*\*SAFETY-TOOL RETAINER\*\* Easy and safe plug in of the tool \*\*TOOLS\*\* A choice of 20 strong tools developed in cooperation with professionals..\*

The inclined grip grants an otpimal handling and

an adaptation on all users.

## ERGONOMIC HANDLES AND ANTI-VIBRATION SYSTEMS

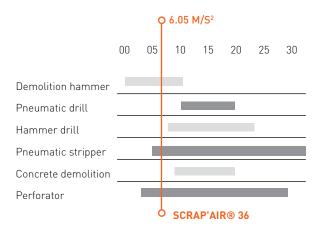

#### **OPTIMIZED WORKING POSITION**

The length of the handle adapted to the application grants an optimal working position for preefficient and safe use by: tance from the impact field which protects from fragments > Respecting an angle of action which grants a comfortable position of the back in case of working on floors > Giving a 2.5m range favouring work on ceilings without any scaffolding. The particular ergonomics of "short handle 52 cm, middle handle 85 cm, long handle 120 cm with lateral grips and T-handle 90 cm» assure you a comfortable and customised working position. The two patented anti-vibration systems, by dissociating head and handle, protect the user from vibration.

# ERGONOMICS - SAFETY POWER - PROFITABILITY - DESIGN

Comparison of vibration levels of common and authorized tools on the European Market.

So, beyond its intrinsic qualities (handiness, lightweight, power and robustness) the **SCRAP'AIR®** progresse in perfect consistency with the main preocupations of professionals:

**HEALTH. EFFICIENCY AND COMFORT.** 

YOUR QUALIFIED SCRAP'AIR RESELLER

WWW.SCRAPAIR.COM

# SCRAP'AIR ERGONOMIC TOOLS

LEADS YOU TO A LEVEL OF EFFICIENCY NEVER REACHED WITH PNEUMATIC MACHINES.

## **SCRAP'AIR**

# INNOVATIONS DESIGNED TO CHANGE YOUR FUTURE

- · Outstanding Power-to-Weight ratio and ergonomics
- · A mastered vibration level ( patented in 2010) that respects the directives 2002/44/EC.
- · A selection of tools adapted to the requirement of your job.
- · A professional tired and tested product range for reduced maintenance.
- · An after sales service workshop composed of reactive and qualified technicians.

## DELIVERED IN A HANDY-BOX

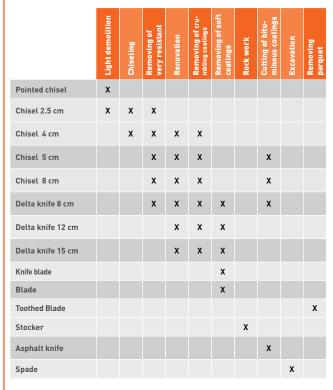

with in-line oiler, oil-can, protection kit and tools (depending on the model chosen)

## **TOOLS**

**HIGH QUALITY:** Our tools Made in Germany, as well as their steady development are very appreciated by professionals:

#### **SCRAP'AIR 36 RENOVATION KIT**

Perfect for: Bricklayer, tiler, asbestos abatement. Air pressure: 6-8 BAR Air consumption: 250L/MIN Power: 25 JOULES Frequency: 3500 BLOWS/MIN

### **SCRAP'AIR 38 REMOVING & DEMOLITION KIT**

Perfect for: Demolition, removing of any floor covering. Air pressure: 6-8 BAR Air consumption: 280L/MIN Power: 30 JOULES Frequency: 2950 BLOWS/MIN

## **SCRAP'AIR 55 ROOFING REMOVING, FLOOR DEMOLITION KIT**

Perfect for: Asbesto abatement, roofer, tiler, civil engineering. Air pressure: 6-8 BAR Air consumption: 300L/MIN Power: 35 JOULES Frequency: 2250 BLOWS/MIN
