General Requirements

File format:	pdf, tiff or jpeg
Bleed:	3 mm
Color:	4C CMYK
ICC-profil:	ISO-Coated v2
Resolution:	300 dpi (1:1)
Fonts:	converted to curves
	(or font-file seperately)

Please save your files in original aspact ratio (1:1) or use a scale like 1:10 with 3000 dpi. Don't trim your document to individuel tracks, if its oversize. Special colors can set as HKS (K) and PANTONE C colors and give us an information about this in your order. Disable all overprint settings.

Cut-lines should placed in a separately layer as 1pt outline.
