

STRAMAT 2K rubbing plastic 2K/4H traffic grey in 10 kg container

RAL 7042
verkehrsgrau A

Item number:

OKA-114-7042.001

Weight:

10 kg

Created on 01.01.2024

Description

STRAMAT 2K Traffic Surface Coating is a reactive multi-component cold plastic system with excellent abrasion resistance and high skid resistance.

Marking surfaces produced with STRAMAT 2K Traffic Surface Coating are permanently elastic, non-thermoplastic as well as weather resistant and have a long service life.

AREAS OF APPLICATION:

STRAMAT 2K Traffic Surface Coating is mainly used for large-area marking surfaces such as cycle paths, traffic islands as well as multi-purpose strips.
