

STRAMAT 2C PU Hall Marking Paint Traffic Gray A

Item number:

OKA-140.7042.001

Weight:

5 kg

Created on 05.01.2026

Description

Solvent-containing 2-component hall marking paint based on polyurethane. For highest demands on mechanical and chemical resistance, high adhesion and low susceptibility to soiling.

The ideal hall marking paint when it comes to high durability under heavy load from forklifts or similar. In addition, the marking does not get dirty so quickly, because it has a very smooth surface.
