

VALIFTER - Liftop Mechanic

Item number:
FED-A-C-S2-MC

Length:
80 cm

Width:
27 cm

Height:
24 cm

Weight:
9 kg

Created on 24.12.2023

Description

The LIFTOP is the universal solution of VALIFTER, which was born from the needs of workers. It is made of a special aluminum alloy. It has a foldable handle, is lightweight and individually adjustable. It is the only manhole cover opener in the world with an ergonomics certification.

Thanks to LIFTOP, the operator maintains an upright posture when lifting and lowering the manhole cover. This minimizes the risk of injury.

Opening a manhole cover seems like a simple activity, but in reality it involves a number of technical and operational aspects. With the LIFTOP, a single worker can open and close all types of manhole covers quickly and safely.

The Hook system extends the capabilities of Valifter lifting systems by enabling mechanical anchoring to manholes. Hook is available in different sizes to allow use on manholes with different dimensions.

Spare parts

Allround lid lifter complete

Item number: BEC-DH-AR

A very compact, lightweight and most importantly collapsible manhole cover lifter.

With this manhole cover lifter all common manhole covers can be lifted, moved away and reinserted.
