

LOBBIA - Safety shoes made from WPA water-repellent full-grain leather

Item number:
GIA-3RUB451L

Created on 21.09.2024

Description

Safety shoes made of EPA water-repellent full-grain IDROTECH® leather, thickness 1.8 to 2.0 mm.

PU-coated, high-strength, abrasion-resistant heel.

Soft lining with Windtex® waterproof membrane and excellent breathability and abrasion resistance.

Shoe with reflective insert.

Soft, padded and lined tongue.

THE SHOE IS COMPLETELY METAL-FREE!

The toe cap 200J - is made of polymeric, non-thermal plastic in accordance with EN 22568.

The midsole is made of PS flexible penetration-resistant composite textile material in accordance with EN 22568.

3Ultra Rubber sole is three-layered: polyurethane and antistatic rubber, hydrocarbon and abrasion resistant, cushioning and slip resistant.

Description

The sole is ideal for maximum grip and stability on gravelly, muddy, icy and snowy surfaces.

An anti-torsion insert is integrated into the sole. **ANTITORSION** is embedded in the sole to facilitate stability on uneven ground.

Extra comfortable memory insole (Trimaterial insole) with soft PU memory foam cushion, which relieves the heel and supports body pressure (breathable, removable, anatomical, absorbent, anti-bacterial and ESD).

FO - The sole is resistant to hydrocarbons

CI - Cold insulation of the sole - 17°

HI - Thermal insulation of the sole

HRO - Heat-resistant sole

SC - Abrasion resistance of the overcap

WR - Water-repellent shoe

SR - slip resistance

CE EN ISO 20345:2022 S7S FO CI HI HRO SC SR

The shoe is DGUV certified.

Available sizes: 38 to 49

Weight: Size 42 = 580 grams

The weight is calculated without laces and insole.
