Item number:  
ELB-03.07.0347

Length:  
28.5 cm

Width:  
38 cm

Height:  
5.5 mm

Weight:  
5 kg

Created on 03.08.2025

## Description

The Flexi bag dispenser is a durable and user-friendly solution for dispensing dog waste bags in public spaces.

With a capacity of up to 400 bags, this dog toilet system is ideal for busy locations such as parks, footpaths or residential areas. The bag dispenser can either be mounted directly on a wall or attached to an existing column using an optional mounting kit.

Thanks to the sturdy construction of powder-coated, hot-dip galvanized steel, the system is particularly weatherproof and vandal-proof. The 3-edge lock protects against unauthorized access and at the same time enables simple, hygienic handling. The modern design blends unobtrusively and functionally into any urban environment - a reliable component of communal dog toilet systems.

### Description:

**Color:** RAL 7021 black-grey

**Filling volume:** approx. 400 dog waste bags

**Locking system:** 3-edge lock incl. key

**Weight:** approx. 5 kg

**Dimensions (W × H × D):** 28.5 x 38 x 5.5 cm

# Description

**Material:** Hot-dip galvanized, powder-coated steel

**Color:** Powder coating available in all RAL colors

**Mounting type:** Wall mounting

## Installation and safety instructions:

Wall mounting is carried out on a stable surface at an ergonomic height for convenient bag removal. The fixing points must be adapted to the respective wall condition using suitable plugs and screws. Access to the removal opening must not be blocked by obstacles. The housing may only be opened for filling by authorized persons using the appropriate triangular key.

## For use in the following areas

- Public green spaces
- Footpaths, schoolyards and playgrounds
- Towns, municipalities and housing estates
- Traffic-calmed areas and rest areas
