Item number:
ELB-03.07.0351

Length:
28.5 cm

Width:
38 cm

Height:
5.5 mm

Weight:
5 kg

Created on 03.08.2025

Description

The Flexi bag dispenser is a durable and user-friendly solution for dispensing dog waste bags in public spaces.

With a capacity of up to 400 bags, this dog toilet system is ideal for busy locations such as parks, footpaths or residential areas. The bag dispenser can either be mounted directly on a wall or attached to an existing column using an optional mounting kit.

Thanks to the sturdy construction of powder-coated, hot-dip galvanized steel, the system is particularly weatherproof and vandal-proof. The 3-edge lock protects against unauthorized access and at the same time enables simple, hygienic handling. The modern design blends unobtrusively and functionally into any urban environment - a reliable component of communal dog toilet systems.
