Weight:
5 kg

Created on 08.08.2025

Description

The Snoobie dog waste bag dispenser - a practical solution for clean public areas!

The Snoobie dog waste bag dispenser offers a well thought-out and space-saving option for the clean disposal of dog waste in publicly accessible areas. With a capacity of around 300 bags, the model is ideal for busy places such as sidewalks, parks, residential areas or dog meadows.

Thanks to the intelligently designed removal opening with a grip hole, the bags can be removed individually and in a controlled manner - this reduces consumption and increases hygiene.

Made of robust, hot-dip galvanized steel with a weather-resistant powder coating, the dispenser can withstand wind and weather as well as possible damage from vandalism.

It can be installed either on a wall or on a pedestal - the necessary mounting material is already included in the scope of delivery. A lockable 3-edge lock protects the contents from unauthorized access.

Description:

Color: RAL 7021 black-grey

Filling capacity: approx. 300 dog waste bags

Description

Locking system: 3-edge lock incl. key

Weight: approx. 5 kg
