

DTF 25 SH LPG, VANGUARD, propane

Item number:

ARX-800076V

Length:

115 cm

Width:

48 cm

Height:

115 cm

Weight:

240 kg

Created on 26.08.2025

Description

DTF 25 SH LPG - Gentle sanding instead of coarse removal
Working width: 250 mm

The DTF 25 SH LPG was specially developed for the gentle removal of surfaces. Instead of tearing or chipping the material, this machine grinds the surface in a controlled and smooth manner. This ensures particularly smooth running and a high-quality finish.

At the heart of the machine is a robust drum fitted with precision-grinding diamond blades. Two diamond discs are available for different requirements: one variant for rough work and one for finer cuts and textured surfaces.

Operation of the machine requires a connected water cooling system, which prevents the diamond blades from overheating and extends the service life of the tools.

The DTF 25 SH LPG is available as a powerful 11 kW electric version with integrated hydraulic travel drive - ideal for professional applications with the highest demands on precision and efficiency.

Technical data:

Description

Nominal voltage: Vanguard, propane

Power/HP: 23 kW / 31HP

Weight: 240 kg / 529 lbs

Working width: 25 cm / 10 inches

Distance to the wall: 6.7 cm / 2.6 inches

Depth (soft concrete): 12 mm / 0.48 in.

Depth (hard concrete): 10 mm / 0.40 in.

Dimensions cm/inch: 115 x 48 x 115 / 45 x 19 x 45

Incl. standard cutters: 73 pcs diamond blades 125 mm / 5 inch

Set of Turbo diamond blades for normal concrete

Item number: ARX-707326

For grooving and milling asphalt and concrete, as well as for surface finishing on normal concrete.

One set contains:

72 pcs. Turbo diamond discs

74 pcs. intermediate discs,

Set of diamond discs wide

Item number: ARX-707345
