

# Leopold 3700 pile driver / pile driving machine

Item number:

CMC-Leo3700

Length:

2400 mm

Width:

2600 mm

Height:

2655 mm

Weight:

3825 kg

Created on 24.01.2026

## Description

Pile driving machine for the simple and safe installation of foundations, sheet piling, the installation of vehicle restraint systems, wildlife protection fences, agricultural fortifications, etc.

### State-of-the-art hydraulics

Precise and smooth movements thanks to load-sensing technology

### Remote control as standard

Optimum comfort and safety when operating at a distance

### Safety without compromise

Leopold is equipped with state-of-the-art safety systems.

Operator safety always comes first. Electronic anti-collision barriers and the electronic anti-tilt system are just some of the systems that enable the operator to work safely.

### Automatic vertical alignment

Two electronic spirit levels ensure precise placement at all times.

### Mighty power

# Description

The 55 kW (74 hp) engine delivers constant power and torque. Even at low speeds.

## Reinforced frame

The most heavily stressed areas have been oversized. For high-performance applications!

## Masts up to 4.5 meters

The removable extension makes it possible to work on masts up to a height of 4.5 meters

## Technical description:

**Engine:** Kubota 55.4 kW / 74.3 HP

**Fuel tank:** 100 liters

**Hammer Power:** SOCOMEC 1080 / INDECO 950 J
