

Highwaystriper - Film removal device

Item number:

KAV-HWS

Length:

1040 mm

Width:

580 mm

Height:

1135 mm

Weight:

92 kg

Created on 31.01.2026

Description

HIGHWAYSTRIPER.

The HIGHWAYSTRIPER removes old road markings quickly, precisely and without leaving any residue. Using state-of-the-art technology, it ensures clean surfaces and prepares roads optimally for new markings.

With the Highwaystriper, a specially developed scribe roller superimposes a pulsating movement on the pulling motion. As a result, the marking tape is specifically torn from the road and is much easier to remove from the road surface. At the same time, the special arrangement of the roller ensures optimum wrapping around the pull roller and thus minimizes the risk of slipping or tearing when removing the temporary marking.

Operation and set-up

- One-man handling - efficient and ergonomic work
- Modular concept - motor and frame unit can be easily separated
- Easy access to maintenance functions
- Compact, transport-friendly design
- Robust and easy to maneuver

Description

- Innovative tearing function of the film from the road

Performance and drive

- High distance performance - up to 12 km of marking film removal in just 8 hours
- Designed for marking films with a width of 12 cm and 15 cm
- Self-regulating hydraulic motors for optimum power distribution and constant work performance

Technical specification

- Total weight: 92 kg, motor unit: 28 kg
- Dimensions (L x W x H): 1040 x 580 x 1135 mm
- Engine power: 6.5 hp
- Fuel tank capacity: 3.6 l petrol
- Hydraulic oil tank capacity: 4 l

Highwayliner - Spare parts package

Item number: KAV-ERS

Spare parts package
3 x machine knives for film cutting process

Highwayliner - Pre-marking unit

Item number: KAV-VMAR

Pre-marking paint pot made of stainless materials:

- Flow cup capacity 800 ml
- Paint quantity can be dosed
- Can be connected to the Highwayliner using the square tubes supplied (2 meters, 3 meters or 4 meters).
- Support of the boom with additional rods to prevent kinking

Highwayliner - Pre-cleaning blower

Item number: KAV-VREIN

Pre-cleaning blower
rMotor-driven blower for cleaning the road surface of coarse dirt and for drying the road surface in slightly wet conditions.
