Created on 16.03.2026

Description

Noisest-Stop® is extremely versatile! It adapts easily to all manhole covers on the market. MEDIUM NOISE - for the soundproofing of manhole covers installed on urban and suburban roads and subject to medium to high daily traffic from cars and trucks. Here, the gap between the frame and cover to be compensated for and their deformation is more pronounced. Packing unit: 6 pieces per pack Wall thickness: 2.0 mm Dimensions: 60 x 120 x 180 mm color: Black Material: black Long-Life® Hardness: 80 Sh Field of application: D400 Typical areas of application: - Average to heavily trafficked roads
