

DIAKAT - FD 200 demarcation tiller with Honda engine

Item number:

DIA-600 050

Length:

1050 mm

Width:

920 mm

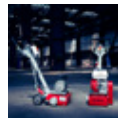

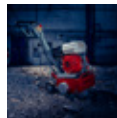

Height:

460 mm

Weight:

89 kg

Created on 19.04.2026

Description

The FD-200 is a compact tiller for small to medium-sized areas.

Its low center of gravity ensures fast, even work. It can be fitted with star cutters or skiving cutters mounted on the shafts. Designed for milling asphalt, concrete, natural stone, floor tiles, screed cement, screeds, paints and similar materials, it brings surfaces to the desired height or removes weathered or superfluous layers.

Features:

- Simple and stepless adjustment of the milling depth
- Locking of the milling depth
- Robust frame
- Damping silent blocks for comfortable working
- Connection for dust extraction
- Easy replacement of all tool types

Areas of application:

- Milling of concrete and asphalt surfaces
- Removal of ruts

Description
