

# Highwaysprayer Primer Sprayer

Item number:

KAV-SPRAY

Length:

640 mm mm

Width:

550 mm mm

Height:

900 mm mm

Weight:

20 kg kg

Created on 18.06.2026

## Description

The HIGHWAYSPRAYER applies primer for temporary road marking film evenly, precisely, and as needed to the road surface. Technical Specifications: • Total weight: 20 kg • Dimensions (L × W × H): 640 × 550 × 900 mm • Suitable for primer containers up to 315 × 315 mm The robust construction ensures a clean primer coat and reliable adhesion between the substrate and the marking tape. Performance & Drive: • High area coverage: up to 12 km of primer application in 8 hours • Flexible use with marking tapes in 12 cm and 15 cm widths • Precise primer dispensing via speed-dependent flow control

# Spare parts

## Highwaysprayer - Spare Parts Kit

Item number: KAV-SPRAY\_ERS

SPARE PARTS KIT - Standard

1x drive wheel, 1x hose set, 1x shut-off valve, 2x nozzles, 2x nozzle gaskets
